# Scenario analysis to formulate policies

# Putting policies into practice

# Applier policy into practice

1. Interpretation of policy objectives
2. Expansion of the policy objectives
3. The interpretation of the mechanism of the policy comes out in the form of tools and resources that are needed.
4. Providing a relationship between the objectives or objectives of the plan in Clause 1, the method of implementation in Clause 2 and the resources used in Clause 3 shall be coordinated and consistent in the form of future forecasts, which also involve time resources.

# Guidelines for Transforming Policies into Practice
